

THRURAYA Docking – Stations

Satellite phones are great in remote areas, but they may be tricky to use indoors or in vehicles. Docking-stations ensures uninterrupted satellite service while using Thuraya satellite equipment in vehicles. Due to the nature of satellite signal, requiring direct view of the satellite, SAT-DOCKER significantly increases reliability of the satellite service for in-vehicle use.

The **SAT-VDA Thuraya Hands-Free Car Kit** is designed to ensure uninterrupted satellite service, safety and comfort while using Thuraya satellite equipment in all types of vehicles.

The **SAT-Docker Vehicle Adaptor** is a light version of SAT-VDA. It takes just minutes to set up, and you're ready to go! SAT-Docker is a very simple and reliable solution for vehicles operating in rough environments.

With **SAT-OFFICE Thuraya Fixed Docking Unit** one can use your Thuraya XT satellite phone indoors where satellite signal is not available otherwise. Any office, home, base camp or shelter can be quickly set up with the **SAT-OFFICE**, ensuring that you are always connected to the world in any place via Thuraya.

The antennas vary “north” and “south” (of equator) depending upon where they will be used – it is therefore important to specify country(ies) or region where the phone is to be use

SAT DOCKER for SO-2510 - #SA-01-SO DOCKER FEATURES:

- Thuraya SO-2510 compatible
- Car antenna available for north or south latitudes
- Phone holder compatible with SAT-Office
- Powers from car cigarette lighter
- Charges phone Li-Ion battery

THURAYA FDU - 3500

Thuraya's Fixed Docking Unit is a home/office docking adaptor that allows the usage of Thuraya satellite mobile phones in indoor environments. ThurayaFDU -3500 complements the Thuraya phones by extending its operation and functionalities to the comfort of homes and offices.

The new ThurayaFDU-3500 has been designed as a state-of-the-art device that complements the new Thuraya SO-2510 and Thuraya SG-2520 in design, features and function. The unit functionality is simple and user friendly.

Simply dock the Thuraya phones into the designated slot of the ThurayaFDU-3500, and all the standard satellite based services such as voice, fax, data and new supplementary services like internet connectivity (i.e. GmPRS) are available indoors.

Benefits

- Allows Thuraya handsets to be used in an indoor environment
- Compact design, easy to install and operate
- Compatible with Thuraya SO-2510 and Thuraya SG-2520 handsets
- ThurayaFDU-3500 facilitates recharging Thuraya SO-2510 and Thuraya SG-2520 phones while they are docked, without the disruption of a call or data transmission.
- Supports Internet services (GmPRS) with USB port or DTE
(Downlink: up to 60 Kbps/Uplink: up to 15 Kbps)
- Supports data services at a speed of up to 9.6 kbps (circuit switched)
- Supports group 3 analog fax machines and PC fax at a speed of 9.6 kbps
- Supports high quality voice transmission via auxiliary handset, speaker phone or regular extension telephone.

In the box :

- ThurayaFDU-3500
- User Guide
- Auxiliary Handset
- Universal Power Supply
- Wall Mounting Adapter
- Standard Handset Battery
- USB Data Cable
- USB Driver CD
- RJ 11 Cable
- SAT Antenna and Cable (25m)
- GPS Antenna and Cable (25m)

SAT VDA (Vehicle Docking Adapter) for XT

SAT-VDA Thuraya Hands-Free Car Kit is a premium vehicle kit for Thuraya. SAT-VDA ensures uninterrupted satellite service while using Thuraya satellite equipment in vehicles.
