satellite communication

Thuraya DSL

The Thuraya DSL satellite IP modem offers "always on" high speed GPRS packet data communication. Thuraya DSL can send or receive data at speeds of up to 144 Kbps making e-mail, internet and VPN available via the Thuraya Satellite Services.

Renowned for its reliability, the Thuraya coverage area now includes more than 110 countries in Europe, North and Central Africa, large parts of Southern Africa, the middle East and Central and South Asia.

- Light, compact, portable and user-friendly
- "Always on" system, you only pay for data sent and received and not for the time connected.
- Unlimited usage available, for a fixed rate download as much data as you wish.
- Can be used indoors with an external antenna
- Maritime antenna available
- Choice of Prepaid and Postpaid subscriptions to suit your usage levels
- Connects to a notebook or desktop computer via an Ethernet port
